## **GP Letters for Benefits, Housing & Blue Badge – Important Notice**

Please be aware that GPs are unable to provide letters for benefits, housing, or blue badge applications. The role of a GP is to provide medical care, and we are not contracted, resourced, or equipped to confirm care needs or administer the benefits system. Time spent completing such letters takes time away from patient care.

If an agency requires medical information, they must contact the GP practice directly, and you must provide your consent for this to be shared. Please show this notice to anyone requesting a GP letter.

For further clarification, agencies may contact the Northamptonshire Local Medical Committees (LMCs), which are the recognised bodies representing NHS GPs in this area.

Thank you for your understanding.
